

THE ORIGINAL AND BEST

PV INSTALLERS

Put an end to broken tiles

We all know how easily Plain or Rosemary tiles break during or even after solar PV installation.

HookStop™ absorbs any impact from movement of the roof hook during or after installation.

HookStop™ is a shock-absorbing tile that replaces the fragile tiles directly under the roof hook. It puts an end to broken tiles, reduces installation time and gives you peace of mind.

Prevents Tile Breakages

HOOK STOP

- Eliminates The Need To Cut Roof Tiles
- Faster Installation
- Fits All Plain And Rosemary Tiles
- UV Stable Recycled Rubber
- Gives You Peace Of Mind
